Can we choose our own groups?

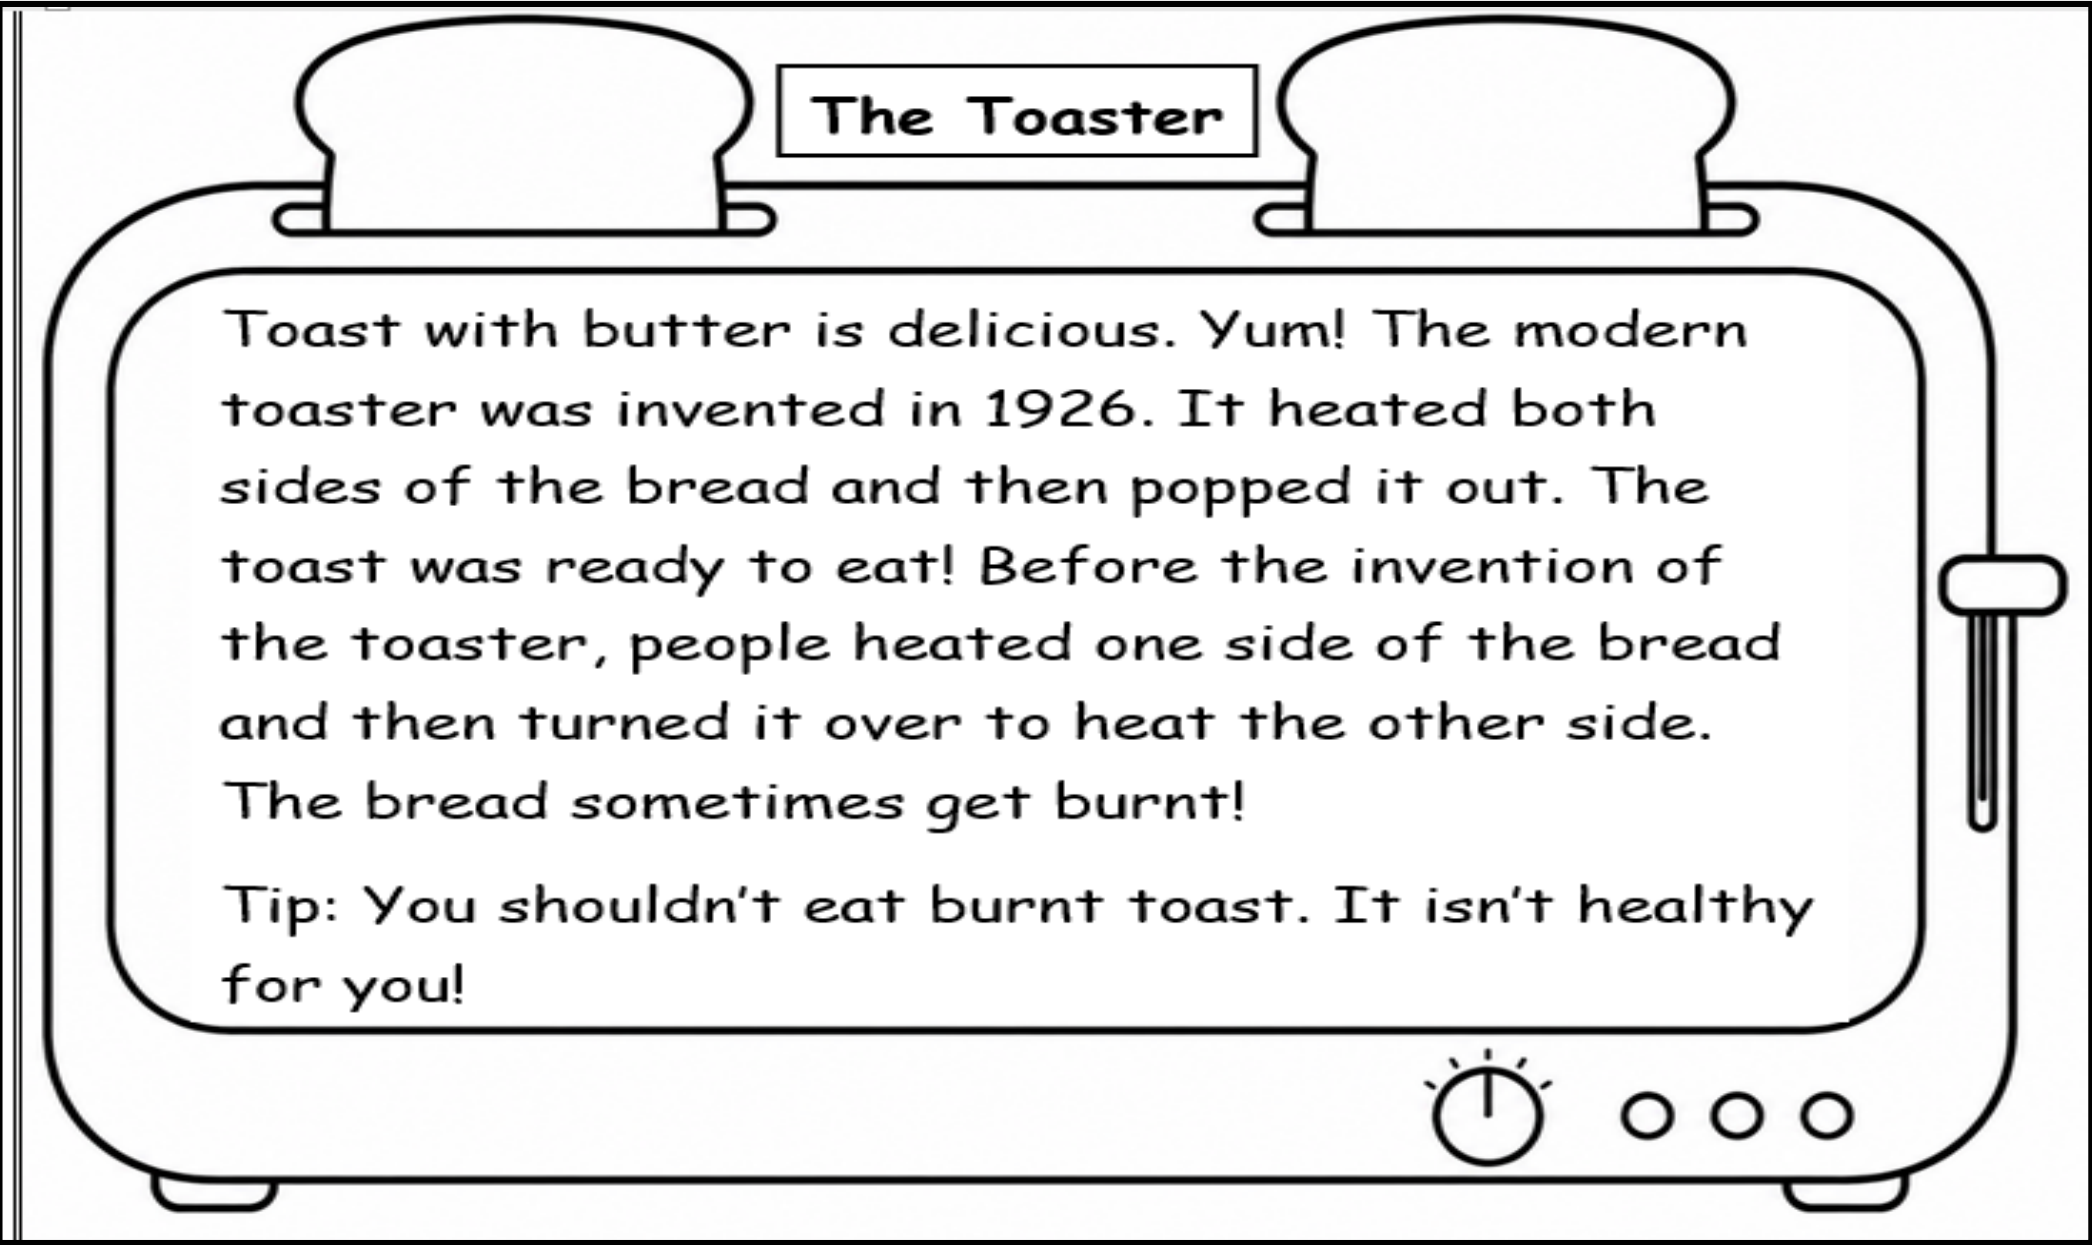

Yes, but make sure to include everyone.

What if we finish early?

Check your work and help your classmates.

A line drawing of a toaster. It has two slots at the top for bread. In the center, there is a rectangular box containing text. On the right side, there is a vertical lever. At the bottom, there is a circular dial and three small circles. A blue bookmark is visible on the left edge of the page.

The Toaster

Toast with butter is delicious. Yum! The modern toaster was invented in 1926. It heated both sides of the bread and then popped it out. The toast was ready to eat! Before the invention of the toaster, people heated one side of the bread and then turned it over to heat the other side. The bread sometimes get burnt!

Tip: You shouldn't eat burnt toast. It isn't healthy for you!
